

INFRARED GUN/ THERMOCOUPLE THERMOMETER

CDN expands its line of infrared thermometers with the powerhouse Infrared Gun/Thermocouple Thermometer. Combining non-contact infrared and thermocouple technologies in a single innovative tool to ensure the best culinary results and food safety.

In addition to quick scanning of surface temperatures, this versatile thermometer features Minimum, Maximum, and Lock modes for scanning multiple targets over time. Integrated HACCP color-coded backlighting instantly shows if temperatures are within HACCP guidelines for safe food temperatures. Multi-faceted, it also offers 8-beam target illumination, battery status indication and a flip down thin tip thermocouple probe for measuring internal temperatures

FEATURES

- NSF[®] Certified
- 1.5 mm thin tip
- Dual function with infrared for non-contact surface temperatures and thermocouple probe for internal temperatures
- Maximum, Minimum and Lock modes for continuous scanning
- 8-beam laser target illumination
- Backlit HACCP check lights
- Food-safe ABS plastic with BioCote[®]

SPECIFICATIONS

Measurement Range:	Infrared: -76 to +662°F/-60 to +350°C; Thermocouple: -76 to +662°F/-60 to +350°C
Distance:Spot:	8:1
Display Size:	0.875 W x 1.125 H (in)/ 2.2 W x 2,85 H (cm)
Power:	2 AAA batteries included
Weight:	5.5 oz/157 g
UPC:	0 18436 00572 8
Other:	<ul style="list-style-type: none"> • 3.75" (9.53 cm) thin tip probe • Rapid response • Data-hold • One-button operation • Battery status indication • 304 stainless steel probe • Auto-off after 15 seconds
